City of Central Point Planning Department Attn: Stephanie Holtey 140 South Third Street Central Point, OR 97502

Subject:

Soil Fill & Removal Certification for New Residence Construction

Twin Creeks Crossing, Phases 1, 2 & 3 - Remaining Lots Master Grading Plan

1080 Boulder Ridge Street (Phase 2, Lot 38)

T.37S. R.2W. S.03BD T.L.4100

Dear Stephanie:

Based on calculations performed by Whetstone Engineering for the subject parcel (see attached drawing), and the Final Elevation Certificate provided by Farber & Sons, Inc. (see attached), the new residence at 1180 Boulder Ridge Street was constructed as follows:

Finish Floor Elevation = 1251.8-ft, NAVD Base Flood Elevation = 1250.0-ft, NAVD Finish Grade Elevation = 1250.8-ft, NAVD Foundation Excavation Quantity = 154 cubic yards Foundation Backfill Quantity = 39 cubic yards **Exported Fill Quantity** = 115 cubic yards Imported Topsoil Quantity = 40 cubic yards Net Exported Soil from Lot = 75 cubic yards

It is the opinion of this engineer that the constructed residence finish floor and finish grade elevations for this lot are in compliance with the remaining lots master grading plan dated 4/30/15 for phases 1, 2 and 3 of the Twin Creeks Crossing Subdivision in Central Point.

If you have any questions, or are in need of further information, please call.

Sincerely,

WHETSTONE ENGINEERING, INC.
